ABOUT THE COLLEGE

For the noble cause of enlightenment of the society" The Satguru Education Society, Fazilka has established the Jyoti B.Ed. college in 2005. The college is beautifully sprawling on 6 acres of Land at the outskirts of fazilka. The college is affiliated to Panjab University & SCERT Chd. and recognized by NCTE, New Delhi for different teacher training programmes. At present, the college offers B.Ed. & D.El.Ed. courses of study. Our vision is to spread the light of knowledge in the Society by providing quality teacher Education.

ABOUT THE SEMINAR

ICT (Information Communication Technology) is emerging as a giant in the communication world forming a network in business, education, tourism, travel, medicine and other. In the education sector ICT is now Considered to be the core aspect.

Technology has presented itself in various forms ranging from instructional technology inside the classroom to open learning or distance education outside the classroom. Thus, offering students with flexible courses and accessibility. ICT has given birth to various innovative practices in teaching learning. ICT has now been acknowledged as a significant catalyst for the growth and development of Nation. ICT has change the entire educational scenario.

The seminar proposes to evolve some recommendations which can highlight certain related issues of ICT in Education and suggest steps for Nation Builders for improving the quality of the Education System.

Sub-Themes

- * Digital Literacy for Teacher Empowerment
- * A Boon for Physically Challenged Learners

ABOUT THE COLLEGE

For the noble cause of enlightenment of the society "The Satguru Education Society, Fazilka has established the Jyoti B.Ed. college in 2005. The college is beautifully sprawling at the outskirts of Fazilka. The college is affiliated to Panjab University Chd. & SCERT Mohali and recognized by NCTE, New Delhi for different teacher training programmes. At present, the college offers B.Ed. & D.El.Ed. courses of study. Our vision is to spread the light of knowledge in the Society by providing quality teacher Education.

ABOUT THE SEMINAR

The excellence of school education mainly depends upon quality and preparedness of Teacher Education Programme of the Nation. Teachers need high quality academic and pedagogical knowledge in their work. And the Teacher Education Institutes is the only platform which performs a significant function of providing learning experiences to lead their Pupil Teachers from the darkness of ignorance to the light of knowledge.

Teacher Education is undergoing swift changes in keeping pace with the demands of learning and expectations of learners, community and society. Ensuring the quality of teaching and education is crucial for teacher education institutes in the present scenario. The development of an inherent quality culture at the institution remains a challenge for responsible faculty members. Various efforts have been made to improve teacher education. But gaps can still be seen. So there is dire need to discuss on questions like - How to produce a quality teacher? What factors contribute to quality in teaching? Professional skills, competencies, expertise in methods of teaching etc.

The discussion and exchange of views on "Need for Quality Assurance in Teacher Education" in the conference would help the Policy makers, Educational planners, Administration and Teaching community to reflect, respond and to initiate the changes to be brought in the system.

Theme- Need For Quality Assurance in Teacher Education

- Changing Pedagogical Requirements of Teacher Training Institutions
- Knowledge collaboration for comprehensive learning
- Quality culture in teacher education
- New curriculum of Teacher Education at different levels (Elementary & Secondary)
- Examination and Evaluation System in Teacher Education
- Role of Regulatory Bodies in Teacher Education
- Challenges for Teachers in Knowledge Society
- Quality Paradigm of Research in Teacher Education

Objectives

- To understand the Changing Pedagogical Requirements of Teacher Training Institutions.
- To understand the need of Knowledge collaboration for comprehensive learning.
- To identifying different variables responsible for developing quality culture in teacher education.
- To explore and reflect critically on the ideas and innovations in curriculum of Teacher Education.
- To explore new innovation strategies in Examination and Evaluation System in Teacher Education.
- To create awareness on innovative teaching strategies and skills for sustenance of quality in B.Ed. programme.
- To understand the need for quality of research in Teacher Education.

ABOUT THE COLLEGE

For the noble cause of enlightening the society 'The Satguru Educational Society, Fazilka' has established the Jyoti B.Ed College at the outskirts of Fazilka, in 2005. The College is affiliated to Panjab University & SCERT, Mohali and Recognized by NCTE, New Delhi for teacher training programmes. At present the college offers B.Ed. & D.El.Ed Courses of Study. The college motto 'To spread the light of knowledge in society by providing quality teacher education.' reflects its goals, vision and mission.

ABOUT THE THEME OF WEBINAR

The National Education Policy 2020, ("NEP") is only a few days old and has been garnering a lot of attention. The NEP approved by the Union Cabinet at a meeting presided by Prime Minister Narendra Modi replaces the 34-year-old National Policy on Education framed in 1986 and is aimed at paving the way for transformational reforms in school and higher education systems to make India a global knowledge superpower.

The NEP 2020, is a practical blueprint for the holistic development of the youth of the 21st century. It has envisaged a vision for seeking substantive change with a view to harnessing the extraordinary potential of human development and India's demographic dividend. NEP 2020 has break-down the existing 10+2 structure and introduction of the new 5+3+3+4 structure of education. It has envisaged the creation of a liberal, multidisciplinary and inter-disciplinary education ecosystem with strong emphasis on the liberal arts, humanities and social sciences along with studies in STEM and Medicine. "No hard separation of arts and sciences." The new education policy aims to give students increased flexibility and choice of subjects to study across the arts, humanities, sciences, sports, and vocational subjects.

As per the policy, the medium of instruction until at least class 5, but preferably till class 8 and beyond, will be the home language, mother tongue, local language and regional language. No language is being imposed in the new National Education Policy and a flexible approach has been proposed with the three-language formula, according to the policy drafting panel chief K Kasturirangan. "Children have a great ability to pick up multiple languages in early age. How it will be implemented in states it is their decision.", he said.

Education for a new generation of learners has to necessarily engage with the increasing dematerialization and digitalization of our economies, requiring a completely new set of capabilities in order to be able to keep up. In this regard, the Policy notes that one of the central principles steering the education system will be the 'extensive use of technology in teaching and learning.' It is also proposed that coding be introduced in school curriculums as an important skill that students must develop. The National Education Policy, 2020 is revolutionary in every sense. While the Policy focuses on multiple aspects, including the need for early childhood care, inclusive education and revamping of the current curriculum, an inherent thread that runs through the Policy is the interplay of education and technology.
